

Hawa Concepta for wooden folding/sliding doors

A new dimension in furniture design

With Hawa Concepta 25/30/40/50 doors can be pivoted by 90° and slid into the side of furniture cabinets or wall niches. This opens up completely new perspectives for walk-in closets, floor-to-ceiling constructions and other storage solutions. Because the doors stored away at the side only take up a minimal niche width in the cabinet interior. This solution also impresses with its intelligent technology. That way, it can cope with the majority of dimensions.

It fulfills creative design wishes with a wide range of design options, profiles and handles. And the Hawa Concepta doesn't throw you a curve during installation, either: Apart from drill holes for positioning and concealed hinges, no other processing is required, since the components are screwed to the intermediate panel and are accessible from the front at all times for adjustment.

Area of application

Furniture constructions for multi-functional room usage such as working areas, washer/dryer combinations, cabinets which can be walked into without obstructions, and even entire kitchens which disappear behind pivot slide-in doors.

System advantages

-  **Flexibility** Easy adaptation for wide range of door dimensions
Can be combined with Hawa Folding Concepta to create three-leaf front panels without separating walls
-  **Productivity** **Efficient installation**, because all components are screwed to the intermediate panel
-  **Comfort** **No obstruction** by protruding doors
Guide with zero clearance and door pull-in with soft closing mechanism
Intermittent guide brushes for various door widths
-  **Aesthetics** Elegant **flush-fitting, floor-to-ceiling** and **walk-in** construction versions possible

Technical specifications

	max.	25/30/40/50 kg
		1250–2850 mm
		300–900 mm
		19–50 mm

Good to know (accessories)

- Connector makes overlaid furniture structures possible
- Straightening fitting for doors

Weight and door size ratio calculations

The maximum weight must be adapted depending on the door size ratio.
